## Education

Btech in Computer Science Engineering from Vishwakarma Institute of Information Technology, Pune

CGPA: 8.43 HSC: 81.33% SSC: 95.40%

---

## Skills and Abilities

---

- Programming languages : C, C++, Python, JAVASCRIPT.
  - Frameworks: REACT, TAILWIND, BOOTSTRAP.
  - DATABASES: SQL, MongoDB
  - Git, GitHub
  - Development: MERN STACK
  - Data analyst tools: MSEXCEL, TABLEAU, POWER BI
- 

## Projects

### 1. Code Lab

- Developed a web-based platform for teachers to assign and evaluate coding assignments.
- Enabled multi-language support for coding submissions, ensuring flexibility for various programming environments.

### 2. BlogIt (MERN Stack Website)

- Created a dynamic blogging platform allowing users to write, search, and comment on blogs.
- Integrated image storage using Multer and Cloudinary, and deployed the site on Render.

### 3. Marketing Sales Analysis

- Conducted comprehensive analysis of customer demographics and purchasing behavior to identify trends.
  - Cleaned, structured, and visualized data using Pandas, NumPy, Seaborn, and Matplotlib, producing actionable insights to enhance marketing strategies.
- 

## Achievements

- 150+ DSA problems on Leet code
- Participated in the debugging contest , debugged 7+ bugs from a single website
- Ranked 4<sup>th</sup> in the Enigma coding competition held in college
